North American Markets

The United States and Canadian markets offer excellent opportunities to exporters. In planning a selling campaign there up-to-date information on market conditions, import regulations and customs duties will be required. In carrying it out, interviews with agents and distributors must be arranged. Intending exporters should consult the Commercial Relations and Exports Department which can help with these problems through its overseas officers. In the United States there are Commercial Officers at the Consulates-General and Consulates, and in Canada there are Trade Commissioners and Trade Correspondents who can save you time by arranging interviews and giving vital background information if the Department has been given the opportunity to advise them of your impending visits.
